

# **KCCNA National Convention** **Overall Championship Guidelines**

## **Title**

**“ALISHA KARATHURUTHEL MEMORIAL EVER ROLLING TROPHY FOR THE OVERALL CHAMPION UNIT AND \$1,001 CASH AWARD”**

## **Background**

KCCNA Executive Committee decided to implement an award titled ‘Alisha Karathuruthel Memorial Ever Rolling Trophy for the Overall Champion Unit and \$1,001 Cash Award’ to the member unit which scores the highest points in the calculation of overall championship criteria. The sponsor shall provide an ever rolling trophy and additionally endow a cash award of \$1,001 during each KCCNA convention.

## **Objective:**

The objective of determining an overall championship shall be to foster and recognize the unit with various talented individuals who excelled in all the competitions when compared with all other units.

## **Scope**

The ‘overall championship’ shall bear significance to the meaning of the term used and therefore, the scope in determining the overall championship should encompass all the competitions included in the convention.

## **Procedure**

1. Determine all the competition categories included in the convention. (Arts and Literary, Indoor and Outdoor Sports and Games, Procession, Unit Cultural Program, Mr. Kna, Miss. Kna and Battle of the Cities)
2. Each category shall be proportionately weighted based upon the time, number of people and the effort involved in that particular category.
3. If additional categories are included or if any of the categories are excluded, appropriate weight shall be given and the total shall remain within 100%.
4. Overall championship calculation shall only take the final points awarded to each unit in the respective category and calculate it for overall championship in the predetermined weighted average mathematical calculation.
5. In all competition categories except for Mr. Kna & Miss. Kna, the respective committees shall provide the maximum points obtainable and the score received by each participating unit. In Mr. Kna & Miss. Kna competition, since the scoring completes only at the end of the final round of the competition, the committee shall consider the points received by the winner, first runner up and second runner up in the competition.
6. Overall championship shall not create separate guidelines for the different competition categories.

## Calculation

<b>Competition Category</b>	<b>Weighted Average</b>
Arts & Literary competition	30%
Indoor and Outdoor Sports and Games competition	30%
Unit Cultural Program Competition	20%
Procession	14%
Mr. Kna	2%
Miss. Kna	2%
Battle of the Cities	2%
<b>Total</b>	<b>100%</b>

The formula shall be:

**(Points received in the category ÷ Maximum points allowed in the category) x weighted average of the category**

*Eg: A unit scored 135 points in arts and literary competition out of a maximum point of 255 (The total maximum obtainable if the unit wins first prizes in each item in the category). The weighted average is 30%.*

*The calculation shall be:  $(135 \div 255) \times 30 = 15.88$  points*

### Arts & Literary competition:

Total points actually received by each unit shall be taken for the calculation. The maximum points allowed shall be the maximum points obtainable if a unit wins first place in all the events.

### Indoor and Outdoor Sports and Games competition

Total points actually received by each unit shall be taken for the calculation. The maximum points allowed shall be the maximum points obtainable if a unit wins first place in all the events.

### Unit Cultural Program Competition

The scoring shall be on common criteria and same maximum point total, for all the units. Total points actually received by each unit shall be taken for the calculation even if the units are grouped into different groups or not. This is to give reasonable weight for the unit even if it did not win in its group due to tough competition, but was better than many who won in the other group.

### Procession

Total points actually received by each unit shall be taken for the calculation. The maximum points allowed shall be the maximum points obtainable if a unit wins first place in all the categories judged.

### Mr. Kna

Total points received by the winner, first runner up and the second runner up shall be separately taken for the calculation. The maximum points allowed shall be the maximum points obtainable at the end of the final round of the competition in all the categories judged.

### Miss. Kna

Total points received by the winner, first runner up and the second runner up shall be separately taken for the calculation. The maximum points allowed shall be the maximum points obtainable at the end of the final round of the competition in all the categories judged.

### Battle of the Cities

Total points actually received by each unit shall be taken for the calculation. The maximum points allowed shall be the maximum points obtainable.

### Process

A committee consisting of one KCCNA Executive committee member or National Council representative, each competition category's committee chairman and the sponsor or his/her assignee shall conduct the process.

The committee shall receive the total points awarded to each participating unit and the respective maximum points allowed, in the competition categories that are taken for the overall championship calculation. Once the points are received, it shall calculate it based on the predetermined mathematical formula and determine the overall championship unit. The unit with the highest point receives the Overall Championship. It is recommended that, after the overall point calculations are done, the total points received by each unit in the overall calculation shall be multiplied by 10 and declared, in order to reflect an attractive score.

### Award Ceremony

Since it encompasses all competitions, Overall Championship is the most significant recognition awarded for competitions during KCCNA convention. Therefore, the trophy and the cash award shall be awarded during the ceremony at the banquet. It is recommended that the sponsor or his/her assignee shall present the award to the winner.
